

REMARKS

Pending in the current application are Claims 1-73.

The current set of 73 claims represent the 73 claims originally filed in PCT patent application PCT/AU2004/000403, with the amendment to the claims made under Article 19 in the PCT on 9/29/05. The Article 19 amendment made changes to Claim 1 only, and left the other claims unchanged. Therefore, a substitute sheet 63 was filed containing the amended Claim 1 and unchanged Claims 2-4. The substitute sheet 63 was to be used to replace the original sheet 63 in accordance with PCT practice. Applicant has applied the status identifier of "Original" to each current claim in this preliminary amendment, indicating that each claim has not been changed from the original filing of the present national stage application.

Applicant respectfully asserts that all of the claims in this application are fully supported and enabled by the specification.

A prompt examination and allowance of the pending claims is earnestly solicited.

Respectfully Submitted,
